Requirements profile: root

Mandate: Jan 1, 2027 – Dec 31, 2027

`root` is responsible for the guild's servers and other hardware. This means that `root` makes sure that all of the guild's computers are up and running and in good health, that the services running on them do what they should, and that the users who should have access to the computers do. `root` also leads the committee's volunteers in improving our digital infrastructure based on the guild's needs and also acts as project manager for this. As project manager, you have an overview of everything that needs to be done and are responsible for prioritising and delegating the work.
