§1   HDMO   Head of the Student Council Christopher Gärtner declared the meeting opened at 12:15.

§2   Time and Place   Time and place was approved despite notice being sent out late.

§3   Approval of Agenda   The meeting **decided**

     to approve the agenda.

§4   Approval of Last Meeting Protocol   The meeting **decided**

     to to approve the protocol from **2026-01-28**.

§5   Information from external Representatives   The Program board - The meeting last Thursday went well with no new changes planned. As for the syllabus, utbildningsplanen, no major changes will happen apart from formatting. List of course credits you can transfer has been appended.

Dates for Studentprat will be sent out later, along with a conclusive list of year representatives.

LGGU - Meeting talked about the program strategy of LTH. An issue is that too many students are being taken in compared to the mandated amount they receive financial support for. They will look at how to restructure or reduce the intake of new students to the programs.

§6   Finished Courses   Year representatives are free to start censoring CEQs for the finished courses. SRD will possibly schedule a time to censor together.

§7   Ongoing Courses

- C1: Digitalization, *EITA65*: Information from the lecture regarding the labs was not scheduled before the labs. Students felt they did not have the necessary knowledge base for the lab. The issue Will be brought up to the lecturer.

- D1:

Nothing special of note.

- C2:

  Computer Security, *EITA25*: Quizzes are quite difficult and 'arbitrary' regarding the correct answer. As there is no exam, the quizzes are the sole compulsory part.

- D2:

  Computer Organization, *EITF70*: Labs use the software 'Ripes', which many students have ran into issues with. The exam had to link to a different version of the program in order to solve it. For the dugga/quiz, the calculator was changed to a different tool from an ordinary calculator.

- C3:

  Nothing new to add.

- D3:

  Nothing new to add. Same comments as C2 regarding computer security.

- VR/AR:

  Nothing special. The frequency of assignments is high currently.

- Other courses: C++ Programming, *EDAF50*: Currently possesses no course representative.

§8   Dismissal of Volunteers

No one to dismiss.

§9   Nominations and other Electoral matters

The following positions are still vacant:

- Class Representative C3
- Class Representative Specialization

If you want to run for any of the positions, it is possible to do so during any ordinary SRD-meeting.

No nominations or other Electoral matters.

§10   Other Matters

Sign up to UUU, hosted by the student union on Sunday 15th feb. The lecture is held to teach year representatives on how to impact the education. A brunch is included during the event. More details are posted on discord for those interested.

To gain your roles on discord, remember to sync your dsek account with the discord.

The new hoodie order will be open for student representatives. Contact Christopher Gärtner if you are interested. Note however, there will be no subsidized orders.

Next week the meeting is held in E:3318 due to teknikfocus.
